

Vectec FMO

Multi-User Browser Based Software

Vectec FM Online (Fuel Manager On-line) provides comprehensive fuel management capabilities for all sizes of fleet operation, using an Internet or Intranet platform.

Vectec FMO Vectec FMO is used in conjunction with any Vectec Access Control Terminal (FACT). **Vectec FMO** is a true 'web based application', this simply means that the software can potentially be accessed from a PC anywhere in the world - the only requirement to use the system is an Internet or Intranet connection, a Login ID and User Password.

Vectec FMO is a scalable solution, ideal for larger fleets, multi-site and multi-user applications that require comprehensive fuel management capabilities at a number of locations. The system allows an administrator to create password controlled access limits for users to specific screens and functions. The system can accommodate any number of users. Any number of remote PC's (clients) can access the web application via their local browser. No software installation is required for client PC's.

Main Vectec FMO Tasks:

- Programming Vehicle Datatags/Fueller Datatags/ Driver Details
- Maintaining tables (Driver/Fueller/Lockout)
- Running Reports
- Stock Control

Advantages of Vectec FMO:

- No components or software needs to be installed on the client computer, meaning no system hang ups or software crashes, resulting in a more efficient system.
- Minimal network requirements
- Scalable solution (1 to 1000's of locations)
- Can be accessed from anywhere in the world via an internet/intranet connection.
- Changes made to the application software i.e updates etc are immediately and universally available to all users.

- **SINGLE OR MULTIPLE USER.**
- **SINGLE OR MULTIPLE SITE.**
- **EASY TO USE DATA EXPORT FACILITY.**
- **EASY TO USE AUTOMATED IMPORT**
- **FACILITY FOR OFFSITE FUELLING ENTRIES.**
- **NO LIMITS ON FLEET SIZE.**

Features of Vectec FMO:

Multi-user: Vectec FMO provides multi-user environment with individual username and password. Managed and controlled by an administrator.

Download Transactions: The **FACT** saves all the transactions that have taken place at the fuelling location.

Vectec FMO communicates with the **FACT** to download all the fuelling transactions, processes them and allows them to be displayed in an easy to read format at any PC which forms part of a network.

Export to Microsoft packages: The reports generated in **Vectec FMO** can be exported into any Microsoft package e.g. Word or Excel with a simple click of the mouse.

Administration features: The administrator has the ability to edit, block and add users easily.

Real Time Monitoring: The administrator can monitor user activities in real time.

History Log: All activities on **Vectec FMO** are logged and can be viewed by the administrator at a future date.

Security: Vectec FMO is designed to be secure with unique username and password for individual users.

- Multiple or Single Site
