

Vectec have supplied fuel tanks to the private & public sector for over 15 years.

The tank is an inner storage tank, externally encased within an outer weatherproof bund to ensure any leakage or nominal overflow situation is safely contained.

The tank is easily transportable as a one-piece unit and reduces costly and time consuming site work.

The tank is delivered to the customer's premises. If at a later date a new site is required it has only to be emptied of contents, cleaned internally, uplifted and transported to its new location.

## Advantages

- Enclosed banded tank.
- Easily transportable.
- Reduced maintenance costs.
- Space saving.
- Weatherproof.
- Sizes/capacity to suit most situations.
- Cuts costly site work.
- Finished in green or black oil resistant paint.
- Needs only suitable level hard standing (concrete ideal).
- Off loading and positioning facilities available if required.
- Over filled product can be recovered from enclosed bund.
- Clients own in-house colours can be accommodated on request.

Capacity (Litres)	Dimensions approx			Weight approx
	H	L	W	
2,950	767 x 3500 x 1800 mm			550 kg
2,400	767 x 2900 x 1800 mm			500 kg
1,850	767 x 2300 x 1800 mm			450 kg
1,200	767 x 1600 x 1800 mm			375 kg
